Form 481, Section 100 Service Quality Improvement Reporting  
Sub-Section 112 Narrative

**The Ponderosa Telephone Co.  
2015**

**PROGRESS REPORT ON SERVICE QUALITY IMPROVEMENT PLAN**

This document is an integral part of the Company's 2015 Annual Report, as attached to Form 481. The Ponderosa Telephone Co. ("Ponderosa") submits its Progress Report on Service Quality Improvement in compliance with §54.313(a)(1).

Ponderosa understands that the environment in which it operates is dynamic, not static. As a result, certain network targets identified in its initial 5 Year Service Quality Improvement Plan filed in 2014, may be modified in response to regulatory requirements that have been subsequently adopted, the Company's financial viability in providing the required services and service quality, changes in technology, customer demand, or emergency related contingencies.

If targets are not met or have changed since the initial 5 Year Plan filing they will be identified and an explanation will be provided.

**UNIVERSAL SERVICE SUPPORT RECEIVED IN 2015**

Per the Universal Service Administrative Company (USAC), as available for the period up to this filing, Ponderosa received a total of \$5,482,198 in USF support funds in 2015. The breakdown of the funding to the point of filing is:

-	\$3,394,870	High Cost Loop Support
-	\$71,304	Connect America Fund-Intercarrier Compensation Support
-	\$2,016,024	Interstate Common Line Support

Universal Service Support funds are used to: 1) maintain, upgrade, and improve the Company's network and, 2) cover operating expenses and debt commitments as necessary to permit it to offer a high level of service for both voice and broadband within the authorized serving area.

USF support will continue to be included in the Company's current revenue accounts and forward-looking projections. Revenues, in the aggregate, are used for both capital expenditures as well as to cover operating expenses and fixed costs incurred to obtain capital from lenders. The Company does not segregate USF separately for purposes of capital and operating expenditures; USF is expended in the same proportion as its contribution is to the Company's aggregated revenue amount.

The proportionate share of USF expenditures in 2015 to date is estimated for CAPEX to be \$1,644,659 (30%); and for OPEX to be \$3,837,539 (70%).

The projects listed in the following 2015 Progress Report are specific to those identified in Ponderosa's 5 Year Service Quality Improvement Plan designed for network improvements involving service quality, coverage and/or capacity as integrated improvement projects and the improvements are not mutually exclusive from one another. In addition to the projects identified in the 5 Year Plan, other expenditures have been made during this period for capital improvements necessary for Ponderosa to continue to meet its ongoing regulatory and customer requirements. All USF funds received were used in accordance with federal rules and regulations towards improving service quality, service coverage, and/or service capacity. In terms of cost, when projects provide multiple benefits, each is of equal dollar equivalence. Where a project involves a single benefit, it is so noted.

## **PROGRESS REPORT**

Maps by wire center detailing Ponderosa's progress towards meeting its 2015 Service Quality Improvement Plan are included as part of this filing. Wire center maps are not provided if there is no progress to report at this point in 2015. The following provides additional information on the progress by wire center:

### **Friant Wire Center:**

**Total 5 Year Plan Project Investment to Date: \$597,156**

#### **Fiber Investment - \$316,743**

Of the six fiber backhaul projects one project is in construction, three projects have a completed design and are awaiting USFS permit approval to begin construction, and two projects are in the design development stage. The FTTH project design is complete and is pending final right-of-way approval.

The fiber job in construction includes 8.9 Kft of fiber serving 178 square miles and a population of 2262 and will provide improved service quality and increased capacity. This project will also be part of a protection ring providing additional reliability.

#### **Broadband Aggregations Investment - \$637**

This project to replace end-of-life routers is in the design phase of engineering.

#### **Microwave Radio Backhaul - \$13,566**

The design for the project to replace end-of-life microwave radios is in progress awaiting final tower construction and coordination with the tower owners.

#### **Upgrade Existing DLCs - \$245,639**

One DLC upgrade project has been completed, one project is in construction, and four projects are in the design phase.

The DLC upgrade project that has been completed (November 2014) serves 2 square miles and a population of 18 and provides improved service quality and increased capacity. The project in construction will serve 2.3 square miles and a population of 162 and will provide improved service quality and increased capacity.

**Install New BLC Sites - \$20,571**

The two new BLC sites are in construction. These new sites will serve 9 square miles and a population of 99 and will provide improved service quality and increased capacity.

**Cima Wire Center:**

No 5 Year Plan projects were planned in 2015.

**Form 481, Section 500 Service Quality Standards & Consumer Protection Rules Compliance**  
**Sub-Section 510 Narrative (Voice)**

**Service Quality Standards**

The Ponderosa Telephone Co. ("Ponderosa") is committed to providing the highest quality service to its subscribers and makes every reasonable effort to comply with applicable service quality standards in accordance with the California Public Utilities Commission, General Order 133-C. Ponderosa provides reports and raw data to the California PUC on a quarterly basis as required by G.O. 133-C and has not had to file any corrective action reports.

**Consumer Protection**

Ponderosa complies with the requirements of 47 CFR Part 64 Subpart U, Customer Proprietary Network Information and the Federal Trade Commission's ("FTC") Red Flag Rules 16 C.F.R. §681 to prevent identity theft. A manual for each of those programs is in place and is part of the employees' handbook. All company employees are required to sign and acknowledge that they have completed CPNI and Red Flag training and understand obligations to adhere to applicable rules. Ponderosa has not experienced any CPNI breaches in the year ending 2014.

Ponderosa also outlines its rates, terms, and conditions under which Ponderosa offers service in its Local Exchange Tariff. The tariff explains customer rights and obligations, customer service, dispute resolution, deposits, billing and payment options, disconnection of service as well as cancellation of service options. Ponderosa keeps its tariffs available for public inspection at its business offices.

**Form 481, Section 500 Service Quality Standards & Consumer Protection Rules Compliance**  
**Sub-Section 510 Narrative (Broadband)**

**Service Quality Standards**

The Ponderosa Telephone Co. ("Ponderosa"), is committed to providing the highest quality service to its subscribers and makes every reasonable effort to comply with applicable service quality standards in accordance with State and Federal Rules.

**Consumer Protection**

Pursuant to 47 C.F.R. § 54.313(a)(5) and or 47 C.F.R. § 54.422(b)(3) Ponderosa is in compliance with applicable FCC Service Quality Standards and Consumer Protection Rules.

Ponderosa also outlines its rates, terms, and conditions under which Ponderosa offers Broadband service in NECA Tariff #5 to Internet Service Providers ("ISP"). The Tariff explains customer rights and obligations, customer service, dispute resolution, deposits, billing and payment options, disconnection of service as well as cancellation of service options. Public inspection of NECA Tariff #5 can be found on NECA's website. Retail DSL rates, terms, and conditions for retail services are provided by the ISP.

### Back-up Power

The Ponderosa Telephone Co. has the following back-up power capabilities:

- a. Switches – stand alone and/or host
  - i. "Friant" Central Office: 125 KW Diesel Generator, 250 gallon capacity, 3 hours, 8 hour back-up battery
  - ii. "Cima" Central Office: 45KW Propane Generator, 500 gallon capacity
- b. Subscriber carrier (DLC, AFC, OPM, etc.)

c. Network Interface Devices (NIDs)

- i. Ponderosa Telephone Co. has 10, 555 customer locations with metallic (copper) connections to the Central Office and their NIDs are powered at the Central Office.
- ii. Ponderosa Telephone Co. has 15 customer locations with non-metallic (fiber optic) connections to the Central Office. These customers' NIDs are battery powered in case of emergency. The batteries are rated to last 8 hours with constant use.

**Ability to reroute traffic around damaged facilities:**

The Ponderosa Telephone Co. has built fiber optic ring redundant facilities between its exchanges (ONIS/FRNT/NFRK/ABRY/SVLK), redundant fiber facilities to Big Creek, and fiber ring facilities between Ponderosa, connecting carriers, and toll tandem. This redundant facility is in the form of a SONENT ring with alternate physical facilities between The Ponderosa Telephone Co. and connecting carriers, its interconnection to the Public Switched Telephone Network.

**Capability to manage traffic spikes resulting from emergency situations**

The Ponderosa Telephone Co. has 11244 customer lines, switching capacity of 20,000 simultaneous calls, and transport capacity for 863 simultaneous calls from the FRNT CO; 93 customer lines, switching capacity of 10,000 calls and transport capacity for 18 simultaneous calls from the CIMA

CO. The Ponderosa Telephone Co. is capable of managing traffic spikes within its own network resulting from emergency situations.

## Form 481, Section 600 Functionality in Emergency Situations Sub-Section 610 Narrative (Broadband)

The Ponderosa broadband network DSLAM's are connected via a fiber ring topology. In most cases the transport traffic path is diverse and at a minimum there is card redundancy in the electronics in the event of a fiber cut or electronic card failure. The network is self-powered and can withstand on average a commercial power outage of 12 hours. Bandwidth out of the wire center is diverse and currently can accommodate up to 3.5 Gbps of peak internet traffic. This network could withstand a power outage, electronic failure and fiber cut.

## Form 481, Section 900 Tribal Lands Reporting

### Sub-Sections 920 – 923 Tribal Government Engagement Obligation

The Ponderosa Telephone Co. has written to each of the chairperson(s) that represent the Tribal entities located in Ponderosa serving area, requesting a meeting to discuss how Ponderosa could better serve the Tribe's telecommunications needs. Ponderosa received an e-mail response from one such Tribal entity and from there and a meeting date was arranged. In the first week of January, 2015 a meeting was conducted between various members of the Ponderosa management team and representatives of the Big Sandy Rancheria of Mono Indians Tribal Council to discuss a range of topics centered on telecommunications.

Copies of the letters and associated notes from the January meeting are attached.

**Sub-Sections 924 – 928 Rights of way processes, land use permitting, facilities siting, environmental and cultural preservation review processes.**

Copies of several Right of way authorizations are provided as an example of Ponderosa's compliance with this sub-section 924. In addition, attached is a copy of a typical USFS special use permit that lists the operating requirements Ponderosa would be obligated to follow in the situation where Tribal land is impacted by a project.

To the extent construction activity takes place on Tribal land, Ponderosa follows the rules and regulations, processes and procedures, as identified in the Code of Federal Regulations, Title 25, Part 169, and those that may be required by the following entities: Bureau of Indian Affairs, U.S. Forest Service, and other local Tribal authorities. Ponderosa is not aware of any violations with regards to activities addressed under sub-sections 925 – 928.

### **Sub-Section 929 Tribal Business and Licensing requirements**

Ponderosa provides service within the serving area, including Tribal lands, as authorized by our CPCN issued by the California Public Utilities Commission. Ponderosa is not aware of any additional Tribal business or licensing requirements that may exist as a condition to conduct business with the Tribal authorities located in Ponderosa serving area.

**Ponderosa**

December 22, 2014

Ms. Elaine Bethel-Fink, Tribal Chair  
North Fork Rancheria of Mono Indians of California  
P.O. Box 929  
North Fork, CA 93643-0929

Dear Ms. Fink,

I want to thank you again for inviting us to visit with you and your other tribal council members last December. I would like to offer another meeting to follow up on the topics we discussed last year as well as any other topics you may have. As you may recall from previous correspondence, the Federal Communications Commission has asked us to review a few specific items with you to insure we are accomplishing our mutual goals. We suggested the following topics as a starting point for our conversation:

- Follow up from last year's meeting,
- Needs assessment and planning to your anchor institutions,
- Feasibility and sustainability planning,
- Rights of way, permitting, licensing, facility placement, environmental and cultural preservation processes, and
- Development of culturally sensitive marketing materials to your members

I look forward to your reply. You may contact me directly via telephone at 559.868.6322 or via email at [mjboos@ponderosatel.com](mailto:mjboos@ponderosatel.com) to schedule a time to meet.

Best regards,

Matthew J. Boos  
General Manager

Ms. Elizabeth Kipp, Chairperson  
Big Sandy Rancheria of Mono Indians  
P.O. Box 337  
Auberry, CA 93602-0337

Dear Ms. Kipp,

My name is Matthew Boos, General Manager of Ponderosa Telephone, and I am writing to request a meeting with you. As technology needs change, Ponderosa wants to be in a position to serve Big Sandy Rancheria. While we hope we have been successfully servicing your telecommunications needs, the Federal Communications Commission has asked us to review a few specific items with you to insure we are accomplishing our mutual goals. To this end, we would like to have this first discussion with you.

We suggest the following topics as a starting point for our conversation:

- Needs assessment and planning to your anchor institutions,
- Feasibility and sustainability planning,
- Rights of way, permitting, licensing, facility placement, environmental and cultural preservation processes, and
- Development of culturally sensitive marketing materials to your members

I look forward to your reply. You may contact me directly via telephone at 559.868.6322 or via email at [mjboos@ponderosatel.com](mailto:mjboos@ponderosatel.com) to schedule a time to meet.

Best regards,

Matthew J. Boos

### Memorandum

---

**Date:** January 8, 2015  
**To:** File  
**From:** Matthew Boos  
**Re:** Big Sandy Rancheria Meeting  
**cc:** Dan, Eric, Linda

Dan, Eric and I met with the Big Sandy Rancheria of Western Mono Indians Tribal Council on January 8, 2015 at 2pm. In attendance was the Tribal Council, including Chair Elizabeth Kipp, Patricia Soto, Regina Riley, Miles Baty and Sharon Carter, Tribal Administrator. The Council did not provide an agenda; however, we spoke about a wide range of topics centered on communications services including broadband, voice and planning and agreed to follow up with each other regarding several items:

- The Rancheria is planning for residential development in the northern area of the Rancheria, with plans for about 20 homes beginning in a few years. The Rancheria still needs water and sewer for the development. Ponderosa asked the Council to keep us in mind as the development progresses so that we can provide all of the communications services on a timely basis, including necessary rights of way. The Council reported that they have no existing right of way issues with Ponderosa.
- Ponderosa explained the availability and benefits of lifeline and tribal discounts to those members with low incomes.
- Ponderosa offered to provide tribal members various training options geared toward computer and internet literacy/terminology.
- The Council reviewed their planned casino expansion with Ponderosa. They explained that it will be similar to the Chukchansi complex, with a hotel and large gaming facility near the intersection of Auberry and Millerton Roads. The Council noted that their Draft Environmental Impact Statement is on their website and includes the planned location of the complex. The Council believes any progress on the complex is at least two years away. The parties also talked about the communications needs of the complex; Ponderosa suggested a communications room be part of the building plans to accommodate the services it provides.
  - The Council also briefly talked about its desire to expand by purchasing additional non-tribal land in the valley, but that any such purchase is at least five to ten years down the road.

- Ponderosa offered to provide marketing that is tailored to the tribal members and the parties discussed billing inserts and tribal newsletters as options for this marketing material.
- Ponderosa also discussed sponsorships and donations that it makes from time to time within the communities it serves and encouraged the Rancheria to contact the Company about any possible sponsorship and/or donation opportunities.
- Ponderosa also indicated that it has used computers and furniture from time to time and the Council responded that they would be interested in any donations of this equipment for its members and offices.

## RESOLUTION 2004-005 AUTHORIZATION TO PONDEROSA TELEPHONE COMPANY LAY A FIBEROPTIC LINE ON COLD SPRINGS RANCHERIA

WHEREAS, THE COLD SPRINGS MONO TRIBE IS A SOVEREIGN TRIBE RECOGNIZED BY THE DEPARTMENT OF THE INTERIOR, BUREAU OF INDIAN AFFAIRS, AND IS LOCATED IN FRESNO COUNTY, IN THE STATE OF CALIFORNIA AND;

WHEREAS, THE COLD SPRINGS MONO TRIBE IS IN NEED OF TELEPHONE UPGRADED SERVICE ON THE RANCHERIA TO PROMOTE ITS INTERESTS AND FURTHER THE AIMS AND ACTIVITIES OF ITS MEMBERS, AND;

WHEREAS, THE PONDEROSA TELEPHONE COMPANY IS IN NEED OF PLACING A FIBER OPTIC CABLE AND CONDUIT SYSTEM WITHIN THE COLD SPRINGS RANCHERIA THAT WOULD UPGRADE ITS PRESENT ELECTRONIC SITE; AND,

WHEREAS, THE PROPOSED ROUTE WILL FOLLOW THE PATH OF AN EXISTING BURIED CABLE ROUTE THAT WAS CONSTRUCTED MANY YEARS AGO AND HAS BEEN IN CONTINUAL USE SINCE.

NOW, THEREFORE BE IT RESOLVED, THE COLD SPRINGS MONO TRIBAL COUNCIL HEREBY AUTHORIZES THE TRIBAL CHAIRPERSON TO NEGOTIATE, AND ENTER INTO LICENSES WITH RESPECT TO TRIBAL LAND; AND,

BE IT FURTHER RESOLVED, THE COLD SPRINGS MONO TRIBAL COUNCIL GIVES THEIR AUTHORIZATION TO PONDEROSA PHONE COMPANY TO UPGRADE EXISTING TELEPHONE LINES UNTIL SUCH TIME THE DESIGNATED UPGRADES ARE COMPLETE.

## RESOLUTION NO. 86-19 RIGHT OF WAY FOR UTILITIES

WHEREAS: The Cold Springs Tribal Council is recognized by the United States of America as the governing body of the Cold Springs reservation; and,

WHEREAS: The Cold Springs Tribal Council has joined the Indian Housing Authority of Central California in order to provide safe, sanitary and decent housing for its members; and,

WHEREAS: The Cold Springs Tribal Council has been awarded a grant from the Department of Housing and Urban Development to build 19+18 (37) homes on the Reservation to provide housing to tribal members under HUD housing projects, and,

WHEREAS: In order to provide drinking water, electricity, telephone, natural gas and cable television to the proposed Cold Springs/IHACC Housing Projects, it is necessary to approve rights-of-way to the utility companies providing the above listed services; and,

WHEREAS: The utility companies need to come on the Cold Springs Reservation for the purpose of conducting surveys so they can make formal application to the Cold Springs Tribal Council and Bureau of Indian Affairs for a formal right-of-way across the Reservation.

NOW THEREFORE BE IT RESOLVED: 1. That the Bureau of Indian Affairs initiate the application process for the utility companies providing services to the Cold Springs Housing Projects.

2. That the utility companies are authorized to enter upon or pass across the lands of the Cold Springs Indian Reservation for the purpose of conducting a preliminary planning and design of said utility extensions to serve the proposed Housing projects. This includes but is not limited to soils testing, site evaluations, and surveying.

3. That, as the proposed rights-of-ways are for the sole benefit of the Cold Springs Indian Reservation, that the

requirements of Title 25, Section 169.12 and Section 169.14 of the Code of Federal Regulations be waived. Said requirements regard payments and/or deposits for consideration for the right-of-way, severance damages, damages caused during the survey, and estimated damages as a result of construction. Provided however, this waiver is limited to the right-of-way application process with the Bureau of Indian Affairs and shall not be valid for any other documents relating to the extension of utilities to the proposed Cold Springs Housing Projects. Provided further, that nothing in this Resolution shall be construed to limit the right of the Cold Springs Tribe from suing in a court of competent jurisdiction the utility companies for any damages they cause on the Cold Springs Indian Reservation arising from their conducting of preliminary planning and design of the utility the utility companies to come on the reservation to survey and do planning design so they can apply for said right-of-way.

C-E-R-T-I-F-I-C-A-T-I-O-N

We, the undersigned, as elected officers of the Cold Springs Reservation do hereby certify that the foregoing resolution was adopted at a duly called meeting on June 12, 1986.

SERVICE LINE AGREEMENT

WHEREAS, the Ponderosa Telephone Company, P. O. Box 21, O'Neal, California 91645, its successors and assigns, hereafter termed "Applicant", has been requested to extend *Telephone Service* to the residence of Gloria and Tom Walker, hereinafter termed "Authorized Occupant", who is the owner or legally authorized occupant or lessee of a tract of trust land identified and described as follows:

Within the SE1/4NW1/4 of Section 06,  
Township 08 South, Range 23 East,  
Mount Diablo Base Meridian,  
County of Madera, State of California, and

WHEREAS, the location of service line required to serve the above described property, and its extent, is more particularly shown and delineated on the attached plat marked "Exhibit A", which has been prepared in accordance with 25 CFR 169.22, and which by this reference is made a part hereof; and

WHEREAS, the regulations of 25 CFR 169.22, provide that an agreement shall be entered into by and between the landowner or a legally authorized occupant or lessee of the land and the Applicant before any work by the Applicant may be undertaken to construct a service line across such land; and

WHEREAS, those regulations further provide that a service line shall be for the sole purpose of supplying the owner or authorized occupant or lessee of land, including schools and churches, with roads, telephone, water, electric power, gas or other utilities for use by such owner, occupant or lessee of the land on the premises.

Now, therefore, it is hereby agreed that in consideration of the Applicant furnishing a buried telephone cable, pedestals and appurtenances to the within described property, the authorized occupant hereby grants permission to Applicant to construct a service line on and across the said property without the payment of any monetary compensation for damages. Applicant agrees to comply with all the requirements of 25 CFR 169.22.

This Agreement is in the nature of a license, revocable at any time at the sole option of the Authorized occupants, and conveys no interest in the land traversed whatsoever.

Dear Mr. Ashworth:

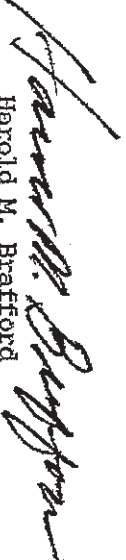

Enclosed is a copy of the approved Service Line Agreement for Big Sandy Rancheria at the address 8134 Table Mountain Road. This is located on Big Sandy Tribal Allotment T1094 and is a portion known as parcel 14, of Section 4, Township 10 South, Range 23 East, MDM, and is shown on "Exhibit B and C". A copy of the Tribal Resolution Number 93-02 for this action is also enclosed.

This will serve as your documentation to connect service to Big Sandy Tribal Building, in accordance with the drawings (Exhibits B and C) submitted and also a part of the agreement. This service line will be kept on file at this Agency and will become a part of the permanent record as a valid agreement regarding this property. Exhibit A, which is similar to Exhibit B, due to its size, will be retained at this office and is available for review upon request.

By copy of this letter and same information, we are notifying Big Sandy Rancheria of the action taken by this office, at this time.

If you have further questions regarding this matter, you may contact Jamie Thomas, Realty Specialist, at (916) 978-4343.

Sincerely,

  
Harold M. Brafford

Dear Mr. Jenkins:

We have received your request for a Service Line Agreement on the Big Sandy Rancheria tribal property, which is located in Fresno County.

You have authorization for this Service Line Agreement, which is granted pursuant to 25 CFR 169.22, and Big Sandy Tribal Resolution No. 90-01, dated 10/15/90. The right-of-way number that has been assigned is R/W 374/96.

The maps which were provided have been retained at this office and your firm should provide a copy of the maps to the Big Sandy Rancheria for their files.

A copy of this letter is being sent to the Big Sandy Rancheria for their information.

If you have questions concerning this, please feel free to write to me at the above address or you may call Virginia Carpenter, Realty Officer, at (916) 978-4343.

## UNITED STATES DEPARTMENT OF AGRICULTURE

Forest Service - Pacific Southwest Region

Bass Lake Ranger District, Sierra National Forest

Madera County, California

## CATEGORICAL EXCLUSION

Ponderosa Telephone

Minaret's Work Center - Arnold Meadow

Telephone Installation Project

The Forest Service proposes to authorize the Ponderosa Telephone Company (Ponderosa) to provide broad-spectrum radio-telephone service (Cy-link) to the Minaret's Work Center (work center), a Forest Service administrative site located on the Bass Lake Ranger District in eastern Madera County. In February 2001, the Forest submitted a service request to Ponderosa to replace the Forest's existing but outdated microwave-based telephone system at the work center. The Forest wants to upgrade the existing telephone system to enable computer and internet-based communications between the work center and other Forest units. Computer-based communications are not possible using the Forest's existing microwave telephone technology. If the telephone system were upgraded Resource, Culture and Fire engine crews stationed seasonally at the work center could access travel, payroll, and other computer programs. With the existing communications system the work center cannot be used for a fire base-camp because Incident Command Teams use computers and internet-based communications for ordering supplies and personnel, running predictive modeling programs, preparing shift plans, etc. If the telephone system was upgraded the Forest would be able to use the work center as a fire base-camp.

If the telephone system upgrade occurs at the work center it would become economically feasible for Ponderosa to provide service to private property owners at the Arnold Meadows subdivision where telephone service is not currently available. Subsequent to the Forest's service request, Ponderosa submitted a Special-Use Permit application, proposing to provide telephone service to both the work center and Arnold Meadow.

The proposed project is located in portions of the N1/2N1/2 Sec. 16; the S81/4SW1/4 Sec. 9; and the NE1/4NE1/4 Sec. 17, Range 24 East, Township 6 South MDB&M in Madera County. The project would encumber 1.848 miles and 3.37 acres of National Forest System lands. (See attached maps). If authorized, the district would amend Ponderosa's district-wide Special-Use Permit for telephone services.

Forest's Service Request at Minaret's Work Center:

The Forest and Ponderosa entered into a Memorandum of Understanding (MOU), executed by the Forest Supervisor on November 14, 2001, to enable Ponderosa to place their communications equipment at the work center. Under the MOU, Ponderosa would mount a two or four-foot transmit/receiver dish on the Forest Service's communication tower. In addition, Ponderosa would install Cy-link and telephone switching equipment on racks inside the existing Forest communication vault. According to the MOU the Forest would retire its solar panel array (that is no longer operative). Ponderosa would use the array framing, replace the solar panels and batteries, and would be responsible for the future operations and maintenance of the array. Electrical power would be provided from the array to Ponderosa's communication equipment through existing buried power lines. The Forest would be responsible for providing upgraded communications lines to buildings and offices on the work center compound. No additional trenching would be required because upgraded communications lines would

be treaded through existing buried conduit.

#### Arnold Meadow Telephone Installation:

As proposed, Ponderosa would install approximately 9,760 lineal feet of direct-buried 50-pair telephone cable from the work center to the Forest Service-Arnold Meadow Subdivision land boundary. All of the cable would be buried to a minimum depth of 30-inches. The majority of the installation would occur along the edge of Forest Development roads. From the communications vault at the work center, Ponderosa would bury approximately 400 lineal feet of telephone cable through the compound.

Ponderosa would use a vibratory plow to install the cable through an unimproved access road leading from the communications vault to within 10 feet from the work center's asphalt road. Ponderosa would directionally bore where the telephone right-of-way crosses the asphalt road in the compound. The right-of-way would skirt around the north side of the Forest Service gate, and follow Forest Road 4S81 north to where it intersects with Forest Road 6S01, avoiding breaking up the concrete curbing near the intersection of those roads. One 8-inch diameter pine tree would have to be removed near this intersection to avoid the asphalt curbing and allow for the installation. The tree would be felled and left in place, with the slash lopped and scattered to a maximum depth of 18-inches deep. Two small diameter manzanita (less than 2-inches dbh) and 6-10 small diameter trees (less than 6-inches dbh) may need to be removed during the rest of the installation. All slash would be lopped and scattered to a maximum 18-inches depth.

The remainder of the telephone installation would occur along the northern edge of Forest development roads 6S01 and 6S44, terminating at the gated entrance to Arnold Meadow. The alignment would leave the edge of the roadbed to route around five culverts and one down drain. If large rocks were encountered while installing the telephone line, Ponderosa would use a backhoe to remove the rocks from the right-of-way. In addition to the directional bore on the work center compound, Ponderosa would also bore around two culverts located at the intersection of road 6S01 and road 6S30. All bentonite used during the boring process would be contained, and removed from National Forest System lands at the conclusion of the boring.

Ponderosa would be required to meet a 95% compaction standard when backfilling the plow line and/or trenches excavated for the phone line installation. The Forest would require Ponderosa to perform compaction tests periodically throughout and following the telephone line installation to ensure compaction standards were met. Ponderosa would water the roadbeds of Forest Development road 6S01 and 6S44, blade and reshape the road surface, and restore all drainages as directed by the Forest. To prevent erosion, Ponderosa would place the cable in conduit where the cable would be routed around culverts. Ponderosa would apply concrete slurry over the top of the conduit and backfill with soil after the concrete hardens. All concrete materials, wet or dry, would be kept away from open water sources. Ponderosa would be prohibited from cleaning concrete mixing equipment and tools on National Forest System lands without express Forest Service authorization. If the project were authorized, after the first significant rainfall, Ponderosa and the Forest Service would inspect the road to ensure erosion was not occurring. Based on that inspection the Forest may require Ponderosa to blade and reshape the road in advance of winter weather closing off access to Arnold Meadow.

The district Archaeologist and a Native American representative would monitor for cultural resources during the telephone installation in two portions of the project area. Ponderosa would compensate the Native American representative for their time and travel expenses. Should human remains, historic, or

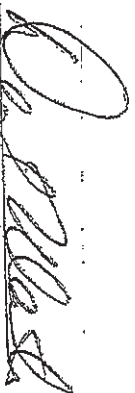

prehistoric artifacts be discovered during installation of the telephone cable, operations would cease immediately. Ponderosa shall leave such discoveries intact until authorized to proceed by the authorized officer.

Internal and external scoping was performed for this project. This project was listed in the Forest Quarterly Schedule of Proposed Actions, and tribal consultation was undertaken with representatives from the North Fork Mono Rancheria and with other members of the Mono people. One environmental organization, Citizens Against Toxics, expressed interest in the project based upon receipt of the Forest Quarterly Schedule of Proposed Actions. No other public concerns were identified.

The environmental impact of the proposed action is minimal. All practical means to minimize ground disturbance would be taken under the terms of the permit. There are no identified extraordinary circumstances that might cause the proposed action to have significant effects upon the human environment. This analysis has determined there are no archaeological resources; threatened, endangered or special status species; or unique habitat known in the project area.

Based on this information, it is my determination this activity would be of limited size and degree of disturbance. I find the proposed action is categorically excluded from documentation in either an environmental assessment (EA) or an environmental impact statement (EIS). The proposed action fits the category of action identified in Forest Service Handbook 1909.15, Environmental Policy and Procedures Handbook, Section 31.2(3), "Approval, modification, or continuation of special uses of National Forest System lands that require less than five contiguous acres of land". This action is consistent with the Sierra National Forest Land and Resource Management Plan. This decision is not subject to appeal pursuant to 36 CFR 215.8(a)(4) and implementation may take place immediately.

For further information, contact Karen Nooney, Assistant District Lands Officer, Bass Lake Ranger District, 57003 Road 225, North Fork, California 93643; (559) 877-2218.

## OPERATING INSTRUCTIONS

### Ponderosa Telephone Company Minarets Work Center and Arnold Meadow Telephone Installation Project

The Sierra National Forest has authorized the Ponderosa Telephone Company's Minarets Work Center and Arnold Meadow Telephone Installation Project. A Categorical Exclusion fulfilling NEPA requirements is on file at the Bass Lake Ranger District.

#### Project Description:

The project area includes the installation of Cy-link radio-based telephone equipment at the Minarets Work Center, including the placement of a two or four foot transmit receiver on the Forest Service communications tower, and the installation of radio switching equipment in the Forest's communication vault. This project also includes the installation of approximately 9600 lineal feet of 50-pair, direct buried telephone cable to the Arnold Meadow subdivision. The proposed route follows National Forest Development roads 4S81, 6S01, and 6S44.

The Ponderosa Telephone Company's master Special-Use Permit will be amended to reflect the installation of these facilities and lines.

\*\*\*\*\*

The Forest Service requires the following operating procedures be incorporated into the project. These operating instructions apply to Ponderosa Telephone and/or their contractor(s).

1. Ponderosa will adhere to the construction plans submitted to, and approved by, the Forest Service for this project. Ponderosa must obtain advance written authorization from the District Ranger or his representative before any changes to the alignment can be made.
2. The Forest will field identify the location of buried utilities before installation of Ponderosa's telephone cable and/or equipment.
3. The district Archaeologist and a Native American representative will monitor for cultural resources during the telephone installation in two portions of the project area. Ponderosa will compensate the Native American representative for their time and travel expenses.
4. If human remains, historic, or prehistoric artifacts are discovered during installation of the telephone cable operations will cease immediately. Ponderosa shall leave such discoveries intact until authorized to proceed by the authorized officer.
5. Ponderosa will directionally bore where the telephone right-of-way crosses the asphalt road in the work center compound. Ponderosa will also bore around two culverts located at the intersection of Forest Road 6S01 and road 6S30. All bentonite used during the boring process will be contained, and removed from National Forest System lands at the conclusion of the boring.

6. To avoid asphalt curbing one 8-inch diameter pine tree will have to be removed near the intersection of roads 4S81 and 6S01. The tree would be felled and left in place, with the slash lopped and scattered to a maximum depth of 18-inches deep. Two small diameter manzanita (less than 2-inches dbh) and 6-10 small diameter trees (less than 6-inches dbh) may need to be removed during the rest of the installation. All slash would be lopped and scattered to a maximum 18-inches depth.
7. Ponderosa is required to meet a 95% compaction standard when backfilling the plow line and/or trenches excavated for the phone line installation. The Forest will require Ponderosa to perform compaction tests periodically throughout and following the telephone line installation to ensure compaction standards were met.
8. Ponderosa will water the roadbeds of Forest road 6S01 and 6S44, blade and reshape the road surface, and restore all drainages as directed by the Forest. After the first significant rainfall, Ponderosa and the Forest Service will inspect the road to ensure erosion is not occurring. Based on that inspection the Forest may require Ponderosa to blade and reshape the road in advance of winter weather closing off access to Arnold Meadow.
9. To prevent erosion, Ponderosa will place the cable in conduit where the cable is routed above culverts. Ponderosa will apply concrete slurry over the top of the conduit and backfill with soil after the concrete hardens. All concrete materials, wet or dry, will be kept away from open water sources, Ponderosa is prohibited from cleaning concrete mixing equipment and tools on National Forest System lands without express Forest Service authorization. Ponderosa will remove all unused and/or excess concrete from National Forest System lands.
10. Ponderosa may be required to spread rice straw on raw soil to prevent erosion.
11. To prevent the spread of noxious weeds Ponderosa will wash all equipment and vehicles used in conjunction with this project before the equipment enters onto National Forest System lands. Equipment must be free of organic material and dirt prior to going cross-country on National Forest System lands.
12. All fueling of equipment will occur away from water sources.
13. Ponderosa will notify the Forest Service of all accidents, spills, or other emergency occurrences immediately.

Form 481, Section 1000 Voice Service Rate Comparability  
Sub-Section 1010 Descriptive Document for Voice Services Rate  
Comparability

Pursuant to 47 C.F.R. § 54.313 (a) (10 ) The Ponderosa Telephone Co., ("Ponderosa") is in compliance with the requirement that voice services is no more than two standard deviations above the national average urban rate for voice service of \$47.48 as specified in Public Notice DA 15-470 issued on April 16, 2015. Ponderosa's current total local end-user rate<sup>1</sup> of \$21.09 (which includes a local fee of \$20.25, mandated state fees of \$00.84 and mandatory extended area service charges of \$00.00) is not above the standard deviation as specified in the USF/ICC Transformation Order.<sup>2</sup>

---

<sup>1</sup> Local End User Rate as defined in USF/ICC Transformation Order 26 FCC Rcd at 17751, Para. 238

<sup>2</sup> USF/ICC Transformation Order, 26 FCC Rcd at 17694, Para. 84 (footnote included) "The standard deviation is a measure of dispersion. The sample standard deviation is the square root of the sample variance. The sample variance is calculated as the sum of the squared deviations of the individual observations in the sample of data from the sample average divided by the total number of observations in the sample minus one. In a normal distribution, about 68 percent of the observations lie within one standard deviation above and below the average and about 95 percent of the observations lie within two standard deviations above and below the average."

Schedule No. A-26

UNIVERSAL LIFELINE TELEPHONE SERVICE  
(California Lifeline Service)

APPLICABILITY

Applicable to eligible residence customers for Universal Lifeline Telephone Service (ULTS) a.k.a. California Lifeline Program or Lifeline furnished pursuant to the Moore Universal Telephone Service Act and in accordance with General Order 153. The Utility as listed throughout this Schedule is identified as the California Lifeline Service Provider in GO 153.

TERRITORY

Within the exchange areas, as said areas are defined on maps filed as part of the tariff schedules

RATES AND CHARGES\*

(1) California Lifeline Service:

	Rate Per Month	
a. Qualifying Residents:		
1. Individual Flat Rate Access Line	\$20.25	
2. End User Common Line (EUCL) Charge	6.50	
3. Federal Lifeline Credit	(9.25)	
4. California Specific Support Credit	(11.39)	
5. California Lifeline Flat Rate Service	\$6.11	
b. Qualifying Residents of Tribal Lands:		
1. Individual Flat Rate Access Line	\$20.25	
2. End User Common Line (EUCL) Charge	6.50	
3. Federal Lifeline Credit	(9.25)	
4. Federal Enhanced Lifeline Credit	(17.50)	(I)
5. California Specific Support Credit	(0.00)	
6. California Enhanced Lifeline Flat Rate Service	\$0.00	(R)

\* The difference between the rates and charges in this schedule and the regular tariffed rates and charges in Cal. P.U.C. Schedule No. A-21 is recovered from the California ULTS Fund or the Federal Lifeline Program and the Federal Link Up Program. Rates include changes required by FCC Order No. 12-11 for both Federal Lifeline and Link Up support for regular low-income consumers and Enhanced Lifeline and Expanded Link Up support for low-income consumers residing on "Tribal lands".

Schedule No. A-26

UNIVERSAL LIFELINE TELEPHONE SERVICE  
(California Lifeline Service)

SPECIAL CONDITIONS

1. Eligibility Criteria for Obtaining and Retaining ULTS

- a. The residence at which the service is requested is the subscriber's principal place of residence. (T)  
An applicant for ULTS may report only one address in this state as his/her principal place of residence (N)  
(N)

A residence as defined in General Order 153, is that portion of an individual house, building, flat or apartment (a dwelling unit) occupied entirely by a single family or individual functioning as one domestic establishment. A room or portion of a dwelling unit occupied exclusively by an individual not sharing equally as a member of the domestic establishment may be considered a separate residence for the application of ULTS.

- b. The subscriber and the members of the subscriber's household collectively have one, and only one, ULTS line, except as provided for elsewhere in this schedule. (T)

- c. Residential customers may qualify for ULTS by meeting either the Income-Based Criteria or the Program-Based Criteria.

- d. Income-Based Criteria:

Based on current income, the applicant's total household income (defined in Rule 1 Definitions) does not exceed the income levels based on household size for the fiscal year for which the service is furnished. (T)

For the current Household Income Limitations, refer to the Pacific Bell Telephone Company's (d.b.a. AT&T California) Schedule Cal. P.U.C. No. A5, Universal Lifeline Telephone Service for the Income-Based Criterion. Acceptable income documents are defined in the General Order 153.

Borrowed money shall not be considered as income when determining eligibility for the ULTS program. Funds transferred from one account to another such as from a savings account to a checking account, shall not be considered as income when determining eligibility for the ULTS program, even if such funds are used for living expenses.

- e. No customer who is claimed as a dependent on another person's income tax return shall be eligible for ULTS. (T)

- f. For self-employed members, the "income from self-employment" shown on IRS Form 1040, Schedule C, line 29 shall be used to determine eligibility for ULTS. (T)

UNIVERSAL LIFELINE TELEPHONE SERVICE  
(California Lifeline Service)

SPECIAL CONDITIONS - Continued

1. Eligibility Criteria for Obtaining and Retaining ULTS: - (Continued)

g. Program-Based Criteria are defined in General Order 153

Program-based criterion allows an applicant to enroll in ULTS based on participation by the applicant or a member of the applicant's household in a means-tested programs approved by the Commission. Approved means-test programs are:

- (1) Medicaid or Medi-Cal,
- (2) Supplemental Security Income (SSI),
- (3) CalFresh Program formerly called Food Stamps,
- (4) Healthy Families Category A,
- (5) Tribal TANF,
- (6) Women, Infant and Children Program (WIC),
- (7) Low Income Home Energy Assistance Program (LIHEAP),
- (8) Federal Public Housing Assistance or Section 8,
- (9) Temporary Assistance for Needy Families (TANF), also known in California as: California Work Opportunity and Responsibility to Kids (CalWorks) Stanislaus Work Opportunity and Responsibility to Kids (StanWorks) Welfare-to-Work (MTW) Greater Avenues for Independence (GAIN)
- (10) National School Lunch Program (NSLP),
- (11) Bureau of Indian Affairs General Assistance,
- (12) Head Start Income Eligible (Tribal Only).

h. A subscriber shall be eligible to receive two ULTS lines if: (i) the subscriber meets all ULTS eligibility criteria set forth above; (ii) a member of the subscriber's household is a disabled member and has immediate and continuous access within the household to a TTY; and (iii) the TTY is issued by DDTP or a medical certificate indicating the household member's need for a TTY is submitted.

i. All ULTS rules and regulations that apply to the one ULTS line shall apply equally to the second ULTS line provided to a subscriber.

j. Customers that verbally certify they meet the ULTS income limits and have proof of income or participate in an approved public program will receive an Application Form in the mail from the California Lifeline Administrator for completion and submission prior to being enrolled in the ULTS program.

k. The completed Application Form and supporting documents, if any, must be received by the California Lifeline Administrator on or before the deadline date specified in the Application Form.

(Continued)

Schedule No. A-26

UNIVERSAL LIFELINE TELEPHONE SERVICE  
(California Lifeline Service)

SPECIAL CONDITIONS - Continued

1. Eligibility Criteria for Obtaining and Retaining ULTS :- (Continued)

I. Enrollment Process:

(a) The Utility shall send a confirmation notice to all California Lifeline applicants informing them of the arrival of Application Forms from the California Lifeline Administrator and the requirement to return the completed form with all required documentation. The notice shall also inform them that failure to return all the required documentation by the deadline date will result in denial of Lifeline service.

(b) Customers will incur regular tariff rates and charges until the approval of their California Lifeline Application Form process is completed.

(c) Customers will be converted to Lifeline service upon the Utility receiving confirmation of the customer's eligibility from the California Lifeline Administrator.

(d) Customers will receive a credit on their bill for the Lifeline discounts retroactive to their application date which will appear on their next bill. The customer may request a refund check for a net credit if the amount is over \$10.00.

m. The Utility shall not knowingly enroll an applicant into the ULTS program who does not meet the ULTS eligibility criteria and the Utility shall not knowingly allow a subscriber to remain in the ULTS program who does not meet the ULTS eligibility criteria.

n. The Utility shall not link the availability of discounted phone service under the ULTS program with the sale of non-ULTS services.

o. The Utility must inform the applicant that he or she may opt to receive the instructions for completing the certification form in Braille (English Only) or instructions and the form in large print.

p. A subscriber changing his/her Utility shall not be required to undergo the Application Process, provided that the subscriber initiates California Lifeline service with his/her new Utility within 30 days of disconnecting California Lifeline service with the previous Utility and the subscriber maintains eligibility in all other respects. If a subscriber changes his or her principal place of residence, while maintaining eligibility in all other respects, the subscriber shall not be required to go through the Application Process again.

q. Pursuant to 47 C.F.R. §54.410(d), an applicant applying for discounts from the Universal Lifeline Telephone Service (California Lifeline) program must provide his or her date of birth and the last four digits of his or her SSN on the Application Form provided by the California Lifeline Administrator.

Schedule No. A-26

UNIVERSAL LIFELINE TELEPHONE SERVICE  
(California Lifeline Service)

SPECIAL CONDITIONS - Continued

2. Federal Enhanced Lifeline and Expanded Link Up Benefits and Qualification Requirements for Low-Income Consumers Living on Tribal Lands. (T)

a. Description

The following Enhanced Lifeline and Expanded Link Up program benefits and qualification standards apply to all low-income residence subscribers residing on "Tribal lands" as the same are from time to time defined by the U.S. Department of the Interior, Bureau of Indian Affairs.. (C)  
(C)

b. Qualifications

In addition to the qualification standards set out in Section 1 preceding for Enhanced Lifeline and Expanded Link Up program participants, residents on "Tribal lands" may qualify for these programs if they participate in any one of the following federal assistance programs: Bureau of Indian Affairs general assistance; Tribally administered Temporary Assistance for needy families; Head Start (only those meeting its income qualifying standard); or National School Lunch Program's free lunch program. Those who qualify under the provisions of this paragraph must provide written certification of such qualification under penalty of perjury and must further agree to notify the Company if the customer ceases to participate in the program or programs. (C)

c. Lifeline and Link Up Benefits

Additional federal Enhanced Lifeline support will be provided to reduce the qualifying customer's basic monthly service rate to \$0.00 per month, inclusive of the federal End-User Common Line charge. (C)

A 100% reduction of up to \$100.00 is available to cover the customary charges for commencing telecommunications service at the principal place of residence of the eligible residential customer, provided that the place of residence is located on "Tribal lands," as the same are from time to time defined by the U.S. Department of the Interior, Bureau of Indian Affairs. This reduction can be applied to both the extension and service connection charges.. (C)

UNIVERSAL LIFELINE TELEPHONE SERVICE  
(California Lifeline Service)

SPECIAL CONDITIONS - Continued

3. Universal Lifeline Telephone Service (ULTS) is available to eligible customers subscribing to flat rate individual line service.
4. ULTS includes all the service elements defined in Rule No. 1 for Basic Service.
5. ULTS is restricted to residence local exchange service including all applicable extended area service. Foreign Exchange Services are excluded from this offering.
6. Discounted Non-recurring Charges
  - a. Service Connection Charge
    - (1) The ULTS connection charge is applicable to each eligible household residing at the same principal place of residence. (T)
    - (2) The ULTS connection charge may be applicable any time a subscriber
      - (a) establishes ULTS,
      - (b) re-establishes ULTS at the same residence at which ULTS was previously provided, regardless of reason for disconnect,
      - (c) establishes ULTS at a new residence, or
      - (d) switches ULTS from one utility to another.
  - (3) Utilities may not impose a "central office charge" in addition to the ULTS connection charge when installing ULTS or activating California Lifeline. (T)
  - (4) Installation of a second and subsequent telephone service connections shall be subject to the Utility's regular tariffed rates for these connections, except that subscribers with a disabled household member may qualify for ULTS connection charges on two residential telephone connections. (T)
- b. Service Change/Conversion Charge
  - (1) The ULTS change/conversion charge is applicable each time a ULTS subscriber requests a change in the class (business or residential to ULTS), type (this means measured to flat rate service or vice versa, which is not applicable in our territory), or grade of service (this means going from one to two party service or vice versa, which is not applicable in our territory), including requests to change from Foreign Exchange Service. There is no limit on the number of times a ULTS subscriber may pay the ULTS conversion charge to change the class, type, or grade of service. This discounted charge excludes adding services not covered under the ULTS program. No conversion charge is assessed if a Lifeline applicant fails to qualify or if a Lifeline subscriber is removed from the Lifeline program (either voluntarily or involuntarily). (T)

	TITLE	Resolution No. T-17321

Schedule No. A-26

UNIVERSAL LIFELINE TELEPHONE SERVICE  
(California Lifeline Service)

SPECIAL CONDITIONS - Continued

7. Eligible subscribers of this service may arrange a deferred schedule of up to twelve months to pay the Utility for the reduced service connection charges without interest. The Utility may charge a late-payment fee when Universal Lifeline Telephone Service (ULTS) subscribers fail to timely remit some or all of the ULTS connection charge under a deferred-payment schedule. (T)
8. Deposits for establishment of service from applicants for new service, as outlined in Cal. P. U. C. Rule No. 7, will be waived for eligible recipients to ULTS. The Utility may require a ULTS customer to pay any overdue ULTS rates and charges, or make payment arrangements, before ULTS is reinstated at the same address or at a new address. The Utility may apply toll restriction to a ULTS customer's line when toll charges are not paid and optional services may be discontinued. (T)
9. ULTS shall be subject to the conditions set forth in Cal. P. U. C. Rule No. 11, Discontinuance and Restoration of Service. Unless the customer directs otherwise, a partial payment will be applied towards the local service non-recurring and recurring charges, and federal taxes first, and the remaining amounts will be applied to toll service and other services at the Utility's discretion. (T)
10. New applicants for telephone service will be advised of the availability of ULTS. Applicants who wish to re-establish ULTS service after removal from the program will be treated as a new applicant, subject to the Application Process and General Order 153 rules, and a Service Conversion Charge as shown in RATES above (once the applicant has successfully re-established ULTS service). The ULTS discount will be effective on the Application Date, and not be applied retroactively to the date of prior enrollment period. (T)
- ULTS subscribers must notify the Utility of any change that causes the ULTS customer to no longer qualify for (1) ULTS, or (2) a second ULTS line. Upon receipt of notification, the Utility will change ULTS to regular tariffed rates and charges for the services furnished. No service conversion charges shall be billed to the customer for this change in service. The regular tariffed rates will be billed retroactively to the date the ULTS service no longer applied. The three-month limitation to back-bill, as set forth in Rule No. 9, is not applicable to the recurring and nonrecurring charges. If reduced service connection charges were applied, the difference between reduced charges and regular tariffed charges will be billed to the applicant. (T)
11. The California Lifeline Administrator will qualify new ULTS customers and verify the continued eligibility of existing ULTS customers. (T)

Schedule No. A-26

UNIVERSAL LIFELINE TELEPHONE SERVICE  
(California Lifeline Service)

SPECIAL CONDITIONS - Continued

12. Toll-free access is available to customer service representatives fluent in the same language in which the Universal Lifeline Telephone Service (ULTS) was originally sold.
13. Each ULTS customer is subject to the annual renewal process. (T)
14. The Utility will annually mail a notification of availability of Universal Lifeline Telephone Service (ULTS) to all its residential customers. (T)
15. In addition to the rates and conditions specified herein, all rules, regulations, charges, and rates in conjunction with the services furnished elsewhere in the tariffs are also applicable to the service provided under this schedule.
16. Optional services and equipment are not included in ULTS rates, but will be provided to ULTS customers at applicable tariffed rates and charges.
17. ULTS rates shall be applied to each monthly statement for the months this service is furnished and shall apply only for the duration of this service.

DEFINITIONS  
(Continued)

**Basic Service:** Includes the following 23 service elements; 18 of which are defined in D.96-10-066, Appendix B page 5. Service element 19 was added in accordance with Resolution T-16546. Service elements 20 through 23 were added in accordance with D.05-12-013, Universal Lifeline Telephone Service (ULTS) aka (California Lifeline Service).

(C)

1. access to single party local exchange service;
2. access to all interexchange carriers offering service to customers in a local exchange;
3. ability to place calls;
4. ability to receive free unlimited incoming calls;
5. free touch-calling dialing;
6. free and unlimited access to 9-1-1/E9-1-1;
7. access to local directory assistance (DA);
8. access to foreign Numbering Plan Areas (NPA's);
9. ULTS rates and charges for eligible customers;
10. customer choice of flat or measured rate service (if measured service is offered);
11. free provision of one directory listing per year as provided for in D.96-02-072;
12. free white pages telephone directory;
13. access to operator services;
14. voice grade connection to the public switched telephone network;
15. free access to 800 or 800-like toll free services;
16. one-time free blocking for information services and one time billing adjustments for charges incurred inadvertently, mistakenly, or that were unauthorized;
17. access to telephone relay service as provided for in PU Code §2881;
18. Toll-free access to customer service for information about ULTS, service activation, service termination, service repair and bill inquiries;
19. free access to California Relay Service (CRS) via 7-1-1 abbreviated dialing code;
20. Toll-free access to customer service representatives fluent in the same language (English and in non-English) in which ULTS was originally sold;
21. Free access for ULTS customers to toll-blocking service;
22. Free access for ULTS customers to toll-control service, but only if (i) the utility is capable of offering toll-control service, and (ii) the ULTS customer has no unpaid bill for toll service;
23. Access to two residential telephone lines if a low-income household with a disabled person requires both lines to access ULTS.

(C)

**Battery Power:**

**BETRIS:** Basic Exchange Telephone Radio Service is a system whereby local exchange service is provided to the customer via radio channel rather than by cable facilities. The BETRIS system consists of central office Digital Radio Carrier Station equipment, and Subscriber Units.

**BETRIS Digital Radio Carrier Station:** A digital radio carrier station that may be located in the Central Office or at a remote site. The Digital Radio Carrier Station provides the interface between The central office equipment and the Subscriber Unit.

**BETRIS Subscriber Unit:** Station equipment located at a customer's premises to provide a link between the Digital Radio Carrier Station and the customer's point of connection. The unit consists of an antenna, a radio transceiver, and a power converter with standby batteries.

Effective

July 1, 2006

TITLE

Resolution No

**Form 481, Section 1200 Lifeline Terms and Conditions**  
**Sub-Section 1221 - 1223 Lifeline customers MOU and additional toll charges**

Lifeline customers receive the same residential service as a regular customer, but at a reduced monthly recurring rate. Thus, lifeline customers have an unlimited number of local calling minutes. As for toll, lifeline customers, similar to every Ponderosa Telephone Co. customer, are free to choose their own toll usage plans through IXCs that serve Ponderosa Telephone Co.

Re: WC Docket No. 14-58, 10-90 & 11-42 Annual Report, Form 481 for High-Cost and Low Income  
Recipient, 54.313(f)(1) "Milestone Certification"

Dear Ms. Dortch:

In compliance with the filing requirements associated with, and attached to Form 481, we wish to advise the Commission that The Ponderosa Telephone Co., 542332:

- Has taken reasonable steps to provide upon reasonable request broadband service at actual speeds of 4 Mbps downstream/1 Mbps upstream;
- Provides latency suitable for real-time applications including VoIP and usage capacity which is reasonably comparable to those in urban areas;
- That reasonable requests for service are met within a reasonable timeframe.

Please contact Dan Douglas with any questions. He can be reached at:

Phone: 559-868-6395

Email: [dand@ponderosatel.com](mailto:dand@ponderosatel.com)

Sincerely,

Matthew J. Boos  
General Manager

The Ponderosa Telephone Co. 542332
